- C and C++
- Python
- React
- Bootstrap
- Git and GitHub
- Canva
- VS Code

LANGUAGES

- English (Fluent)
- Hindi (Fluent)
- Chhattisgarhi (Native)

PROFILE

A passionate and detail-oriented IT engineering student with strong skills in front-end development and UI/UX design. I specialize in building responsive websites using HTML, CSS, JavaScript, and React. Currently working on impactful projects like SafeHER, focused on women's safety analytics. Eager to apply my skills in real-world web development and contribute meaningfully to tech-driven solutions.

EDUCATION

Bachelor of Information Technology
2023 - PRESENT

School of studies in Engineering and Technology | Guru Ghasidas University currently in 4th Semester

PROJECTS

E-commerce Landing Page
JUNE 2025

Built a fully responsive landing page for a handbag e-commerce site using only HTML and CSS. Focused on clean UI design, brand aesthetics, and mobile-first responsiveness.

Technologies Used: *HTML , CSS.*

Calculator Web App
JUNE 2025

Developed a functional calculator supporting arithmetic operations with modern UI design. Designed the layout and implemented logic using JavaScript.

Technologies Used: *HTML , CSS , JavaScript.*

SafeHER – Women Safety Analytics Platform
APRIL 2025 - PRESENT

Co-developed an AI-powered women's safety web application that analyzes location data and identifies threat-prone zones. Integrated real-time UI and analytics dashboard.

Technologies Used: *HTML , CSS , Bootstrap , React.*

Portfolio Website
JUNE 2025

Built a responsive personal portfolio to showcase web development projects and internship work.

Technologies Used: *HTML , CSS , GitHub pages.*

ACHIEVEMENTS & HACKATHONS

Selected for CodSoft Web Development Internship – June 2025 Batch

Built and deployed multiple front-end projects during internship

Winner of mini-project competition for "SafeHER" at college

Participated in Women Safety Hackathon (2025)
